

Product sizing, case design and palletizing software

Cape Pack

Cape Pack is palletizing software that allows you to optimize your primary product size for shipping, create new case sizes, build efficient pallet patterns, analyze compression strength of cases and pallets, and improve material and cube utilization.

Rightsize packaging simplified with Cape Pack

Cape Pack helps you determine the best product size, case count, product arrangement, case size, pallet and container load. Cape Pack users can upload critical up-to-the-minute information to Cape Cloud to share with colleagues around the corner or around the globe to speed up design and approval processes. Cape Pack seamlessly integrates with ArtiosCAD.

Benefits

- Design the optimum product size
- Right-size your packaging for your product
- Maximize pallet loading
- Create a sustainable packaging supply chain
- Improve space utilization
- Cut transportation costs
- Perform compression strength analysis on your case and pallet load
- Reduce the number of trucks on the streets

Cape Pack modules

Cape Pack Essentials is a simple and practical program for solving pallet loading challenges, improving pallet utilization and load stability and optimizing container or truck utilization. Use this pallet loading software and within a few seconds of entering your data you can view a range of on-screen diagrams and reports so finding the right pallet pattern and container load is easy. Users can upload their design to the cloud to share for review with colleagues and stake holders.

Cape Pack Advanced allows you to design optimal sized products so you can fit more in the case, on the store shelf, and get more product on a pallet while looking at new product sizes for those primary packages and better product arrangements in the case.

Users can upload their design to the cloud to share for review with colleagues and stake holders. Cape Pack Advanced also includes Cape Pack Essentials.

Cape Reviewer is for users without access to Cape Pack Essentials or Advanced who need access to all Cape solutions for their company, configure reports, and generate and download PDF reports and imagery from the solution.
